Description
It's written in Python 2, which is not supposed to be included in Bullseye.

Moreover, it depends on:
- python-jabberbot: still in Buster but won't be in Bullseye; the version in Debian is Python 2 only
- python-xmpp: antique CVS snapshot; orphaned; on life support since years (e.g. #9074); the version in Debian is Python 2 only and therefore will likely not make it into Bullseye

So it seems like this will need to be rewritten using maintained Python 3 modules once we want to run the test suite on Bullseye.

Resolved 09/14/2018

History
#1 - 09/07/2019 06:07 AM - intrigeri
- Blocked by Bug #15460: Test suite broken with Java 9+ so we need to replace Sikuli added

#2 - 09/07/2019 06:08 AM - intrigeri

- Blocked by Bug #15460: Test suite broken with Java 9+ added

Rationale: as long as our test suite can't run on Buster, it's not worth worrying about running it on Bullseye.
