Hi segfault,

woohoo, that was fast!

Could you please transplant your branch onto stable, so we can ship this fix in 4.1? (Besides, devel-based branches FTBFS at the moment so our CI can't test this branch.)

For details, see https://lists.autistici.org/message/20191019.124146.e0d2338f.en.html :)
LGTM, merged!

In passing: [https://redmine.tails.boum.org/code/projects/tails/issues?query_id=194](https://redmine.tails.boum.org/code/projects/tails/issues?query_id=194) has a few branches that are waiting for review, some of them since 2+ weeks. Hint, hint :)
