<tr>
<td>Description</td>
<td>We received a report from a user (Bug report: d64cf80693edbd475188d20d8f657c80) saying that with Tails 4.2 they need to disable MAC spoofing in order to get the network to work. It looks a lot like #17388 and #17418 even if it seems to affect an intel chipset in this case...</td>
