**Description**

Team: bertagaz, intrigeri

**Subtasks:**

- Feature # 6186: Specify system requirements for lizard failover - Resolved
- Feature # 6190: Ask TTP if they have capacity to host lizard failover - Resolved
- Feature # 6191: Ask a VM to tachanka for lizard failover - Resolved
- Feature # 6249: Get access to the new VM - Resolved
- Feature # 6250: Configure the lizard failover - Rejected
- Feature # 10243: Update system requirements for lizard failover - Resolved
- Feature # 10244: Research and decide where to host the lizard failover - Rejected

**History**

**#1 - 07/25/2013 04:17 AM - intrigeri**

- 20GB of disk space, and growing (will jump to a few dozens GB once we distribute source packages ([#5987](https://tails.boum.org/blueprint/lizard_failover/)) and get ourselves a freezable APT repo ([#5926](https://tails.boum.org/blueprint/lizard_failover/)).
- low CPU usage
- 1GB of RAM should be enough
- datacenter-class bandwidth

**#2 - 12/29/2013 03:23 AM - intrigeri**

- Category set to Infrastructure

**#3 - 11/03/2014 09:36 PM - sajolida**

- Target version set to Sustainability_M1

**#4 - 08/14/2015 11:49 AM - sajolida**

- Description updated

**#5 - 09/07/2015 10:53 AM - sajolida**

- Target version changed from Sustainability_M1 to 2016

**#6 - 09/25/2015 07:41 AM - intrigeri**

- Blueprint set to https://tails.boum.org/blueprint/lizard_failover/

04/03/2020
See updated specs on the blueprint.

- Status changed from Confirmed to In Progress

- Target version changed from 2016 to 2017

- Status changed from In Progress to Rejected

We budgeted money to replace lizard in a hurry if it fails, instead.
