Tor Launcher should not pretend we ship a default set of bridges

Tor Launcher says "You may use the provided set of bridges or you may obtain and enter a custom set of bridges.", which is untrue.

This is fixed, among other things, in the feature/tor-launcher-0.2.5.3 branch. Please review and merge!

Note that it seems the upstream fix (#11482) will be to remove the prompt when no default bridges are configured.
